

Plancha Keraliss Brazil PRO Titanio

method of use

Step 0 – Technical Data

- Plate: titanium alloy panel
- Heater: MCH
- Voltage: 100-240V
- Frequency: 50/60 Hz
- Display: LCD screen
- Temperature setting: 80-250°C
- Power: 45-250 W
- Cord length: 2.5 meters

Step 1 – Power On

- Connect the device to the correct power source
- Press and hold the power button for 2 seconds to turn on the device
- Set the temperature by pressing the “+” and “-” buttons. Temperature can be set between 80-250°C
- To change the temperature unit: press and hold both “+” and “-” buttons at the same time to switch between Celsius and Fahrenheit

Step 2 – Usage

- When the temperature reaches the set point, you can start using it
- Place an appropriate amount of hair between the plates and press the handles together, pulling from root to tip

Step 3 – Power Off

- While powered on, press the button to adjust the automatic shut-off timer, which is normally set to 60 minutes
- After use, press and hold the power button for 2 seconds to turn off the device

Tips – Safety Instructions

- Make sure the device is unplugged after each use
- Do not use on very wet hair and do not immerse the product in water or other liquids
