

STRATTI TREATMENT RECHARGE

method of use

OPTION 1 – Use as a Finishing Product

- Wash hair with Stratti salt-free Shampoo.
- Hydrate using Stratti Mask and/or Conditioner.
- Rinse thoroughly with plenty of water.
- Remove as much moisture as possible with a towel (do not use a blow dryer).
- If available, apply Stratti Leave-in Cream from mid-length to ends.
- Take a small amount of the **Treatment Charge**.
- Rub between your hands, then apply evenly throughout the hair.
- Do not rinse.
- Let hair air dry or blow-dry if desired.
- The product can be used after every wash.

OPTION 2 – Use as an Intensive Treatment

- Wash hair with Stratti Shampoo.
- Rinse thoroughly with plenty of water.
- Remove as much moisture as possible with a towel (do not use a blow dryer).
- **Apply the Treatment Charge by hand, section by section.**
- Use enough product to cover each strand thoroughly.
- Leave on for **10 minutes**.
- To enhance results, use a thermal cap.
- After the pause time:
 - **Fine or oily hair:** rinse with water only.
 - **Normal, thick, or resistant hair:** do not rinse.
- Brush and proceed to dry:
 - **For curly effect:** dry with a diffuser facing upward.
 - **For straight effect:** blow-dry and finish with a flat iron.
- We recommend waiting 24 hours before washing your hair again.
- Result: hydrated, frizz-free hair for 1 to 2 months.
- *For lasting results, use salt-free (Sodium Chloride-free) products from Skafe's home care lines.*
- Wait at least 7 days before repeating the treatment.
- Wait at least 7 days before coloring and 15 days before bleaching.
- **Safe for pregnant women, breastfeeding women, and children.**
